COMMENTS:

I think a rail system that would allow multiple use would be beneficial to our area, with all YMP shipments having top priority on the system.

I like the idea of armed escorts, as well as the satellite tracking system that will be in place.

It would be helpful to our local economy if big business had another way to get their products to and from our area.

I am all for the YMP.

Please note: Your comment(s) must be received by the Department of Energy by June 1, 2004 to be considered. Comments received after the close of the comment period will be considered to the extent practicable.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so the address and postage-paid notice are visible, then secure with tape.

Please feel free to attach additional pages (if mailing, more postage may be needed).
